Pom-pom (<https://hearthookhome.com/different-methods-making-pom-poms/>)

1. MAKING POM POMS WITH TOILET PAPER ROLLS

This method makes large pom poms. You're going to lay two empty toilet paper rolls together. Wrap yarn around and around and around the two tubes until you've got a good amount of yarn. Take another piece of yarn (about a foot long should suffice) and work it between the two tubes and tie a tentative knot. Gently push the yarn toward one end of the tube, being careful to hold onto both ends of the yarn you're using to securely tie the pom pom together. Once the yarn is off the tubes, tie it tight (toilet paper rolls were previously).

Trim to form and voila! Done.

2. MAKING POM POMS WITH A FORK

Using a fork, wrap yarn around all tines. Wrap and wrap until you get the desired amount of yarn. Now you'll thread another piece of the yarn through the center tines, and tie a secure knot. Gently pull the yarn off of the fork and cut up both sides to create the pom pom. Trim to form and voila! Done.

3. MAKING POM POMS WITH YOUR HAND

Basically the same idea as the concepts above. Simply wrap around and around your hand until you get enough yarn. Gently pull the yarn off of your hand, wrap another piece around the center of the yarn ball. Tie it tight to secure, cut up both sides. Trim to form and voila! Done.
