**Creation of a font: Perimeter, Area, Volume & Mass**

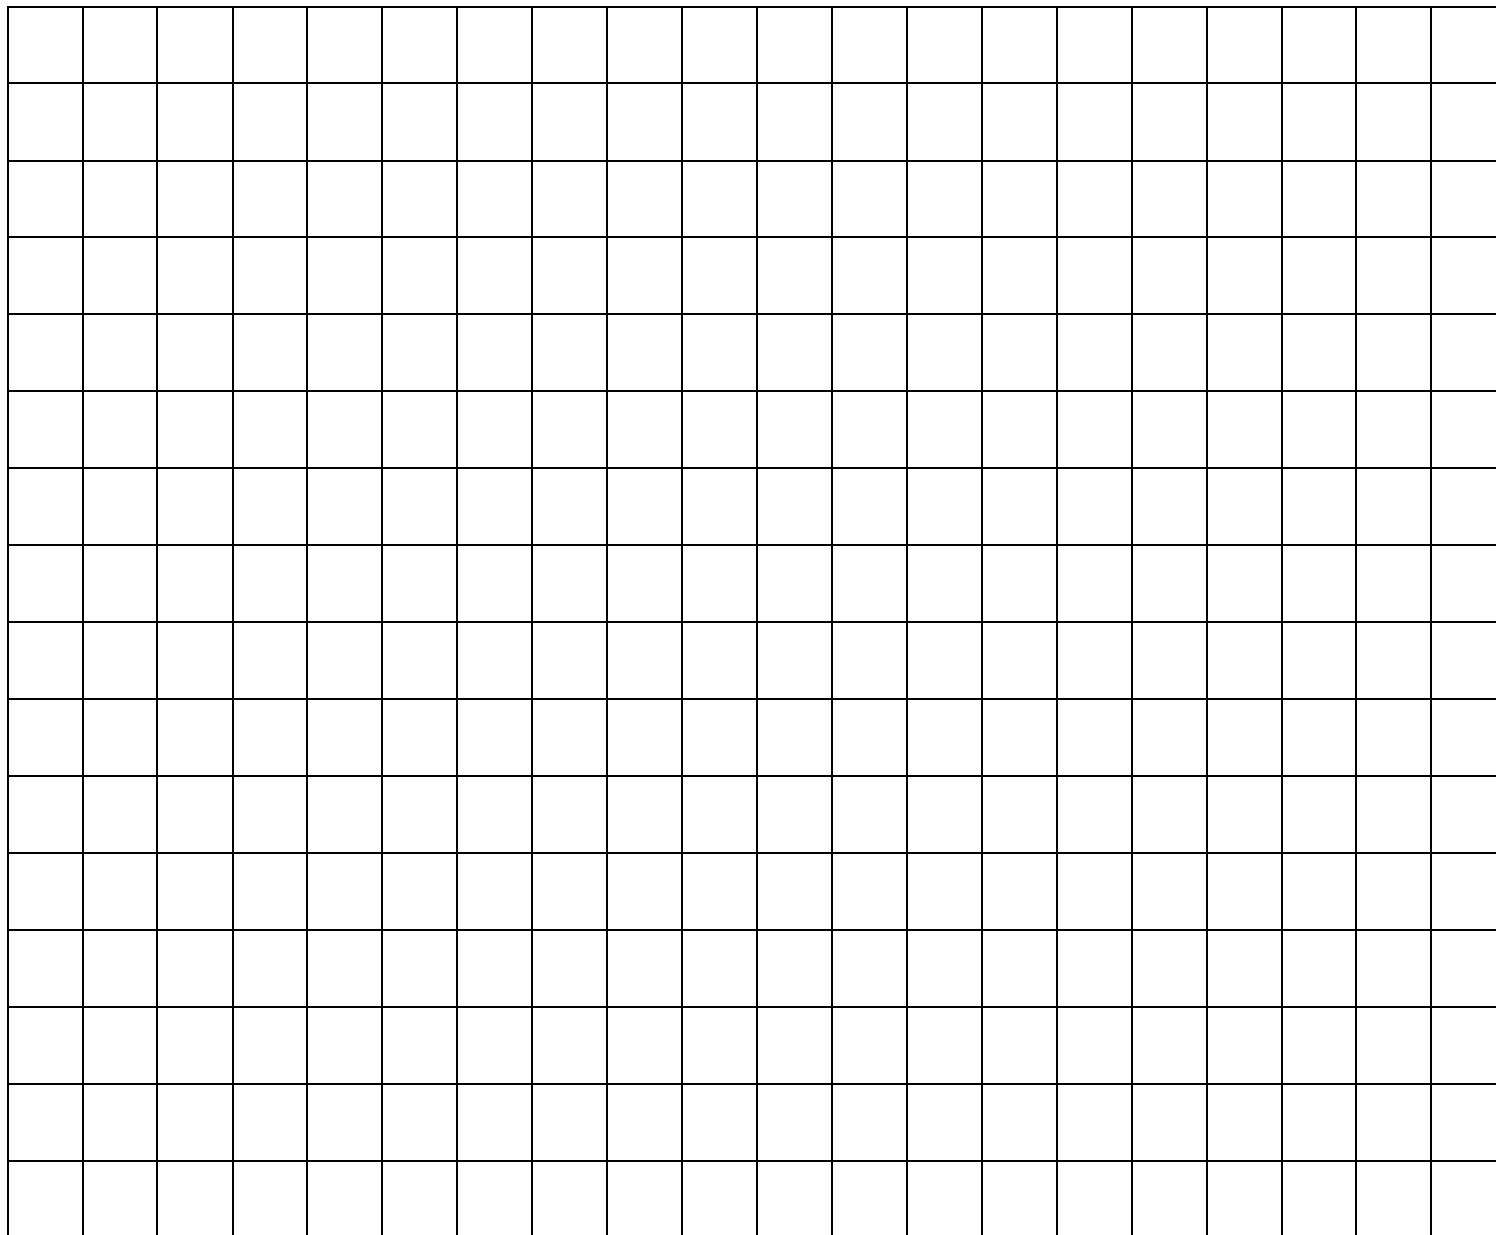

**Instructions:**

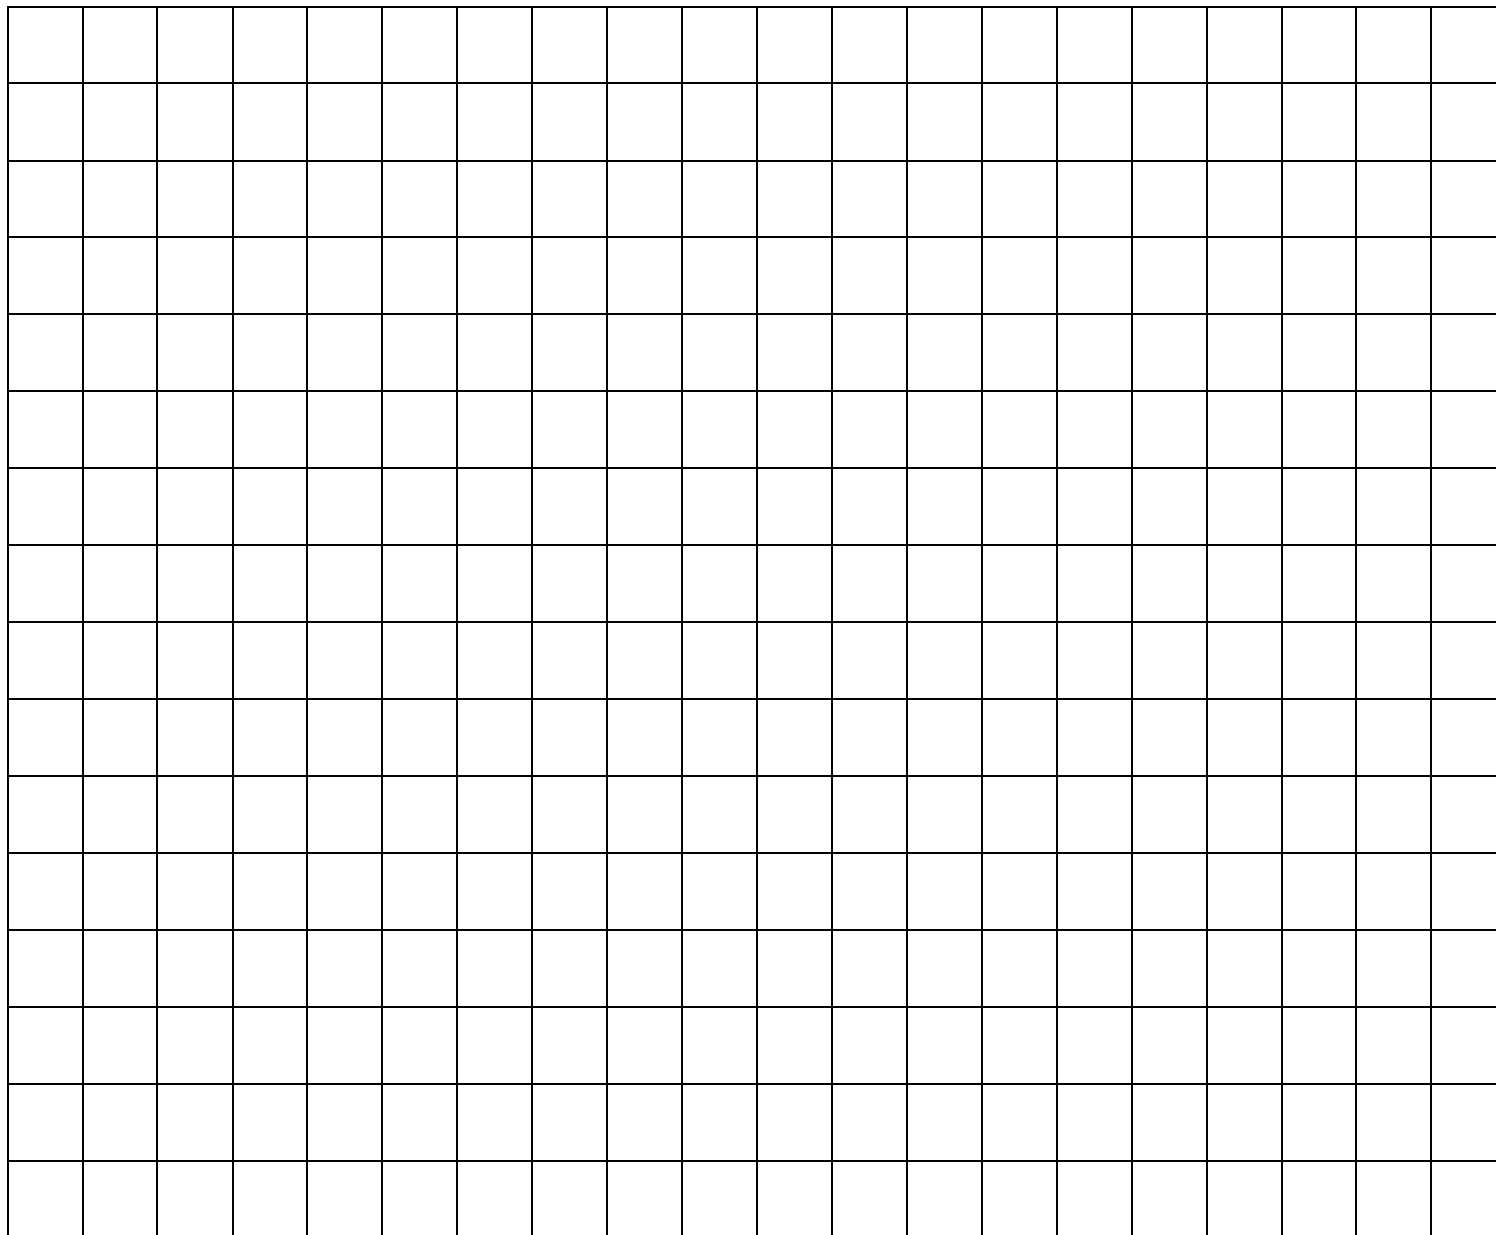

For this sheet, you must find the Perimeter, Area, Volume, and Mass (if you can (click [Me](#) if you are using Minecraft) of your item. The first step is you need to find the total perimeter then for each of the 4 to 10 letters. Next, you need to find the total area for each of the 4 to 10 letters. After that, you need to find the total volume for each of the 4 to 10 letters. The last step is to find the total mass of your word/font. You will give a reason to why you chose the Word and Medium

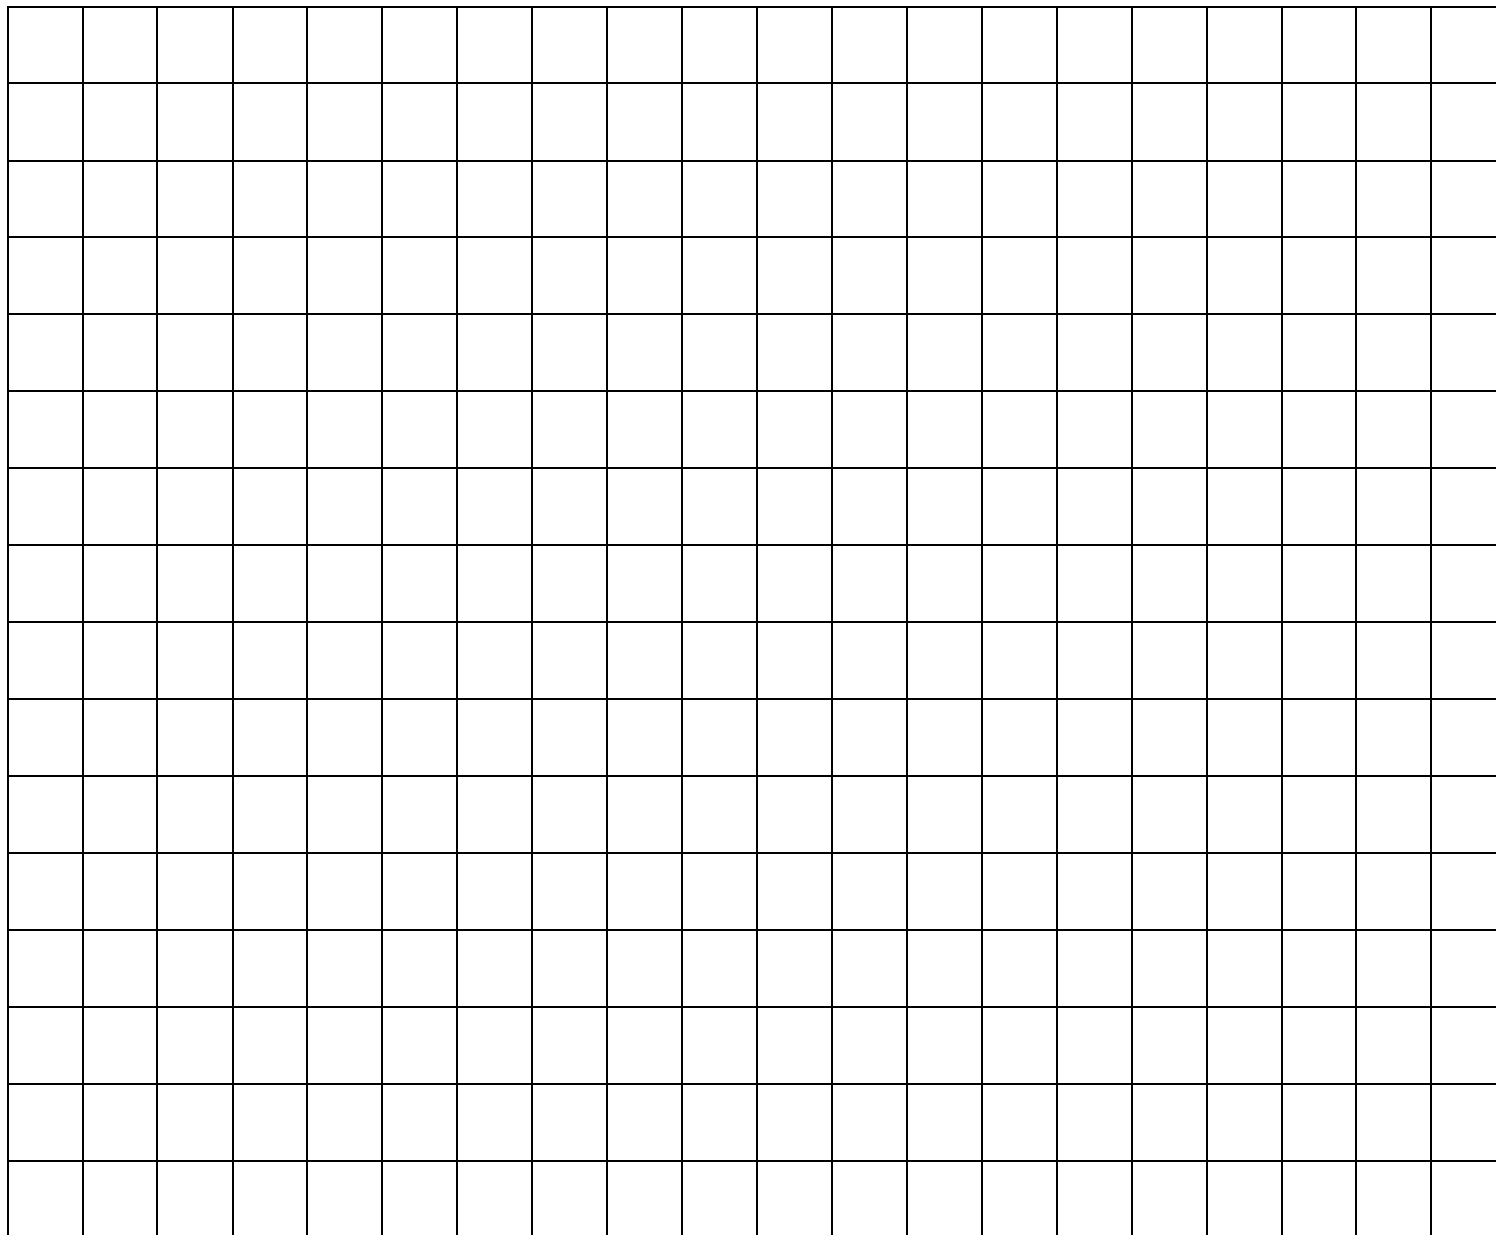

<b>Word</b>	
<b>Medium</b>	
<b>Reason:</b>	<hr/> <hr/> <hr/> <hr/> <hr/>
